**CENTRAL EASTERN EUROPEAN
EXHIBITION STATISTICS**

2010

OF THE MEMBERS OF
CENTREX INTERNATIONAL
EXHIBITION STATISTICS UNION

AND MEMBERS OF THE POLISH
CHAMBER OF EXHIBITION INDUSTRY

VISITORS

Number of visitors is calculated on evidence. Number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Season tickets sold are calculated as reasonable. Number of family tickets sold are calculated as 4 visitors.

Persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available. Number of foreign visitors is established either by tickets sold out at special counters for foreigners, filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

NUMBER OF VISITS

As a new category the number of visits can be established with evidences of re-visits of the visitors. If no evidence of re-visits occurred one visit per visitor was presumed therefore the number of visits equals to the number of visitors.

SPACE

The contracted space refers only to the area occupied by exhibitors. It corresponds to the number of square meters invoiced and paid for by these exhibitors. Surface areas given free of charge are not counted.

The contracted space is divided up in indoors and outdoors rented by exhibitors. Special show space is where performances, shows, lectures, contests, it relates to the theme of the exhibition and it constitutes part of total net exhibition space.

EXHIBITORS

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the bill from the exhibition organiser and settles it directly. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand and their autonomy can be undoubtedly recognised even without physical separation. The nature of the participation and the identity of each exhibitor at the stand should be undoubtedly clear from the application form sent to the exhibition organiser.

MULTINATIONAL COMPANIES (AS SUBCATEGORY OF DOMESTIC EXHIBITORS) **NEW!**

A multinational corporation (MNC) is a corporation or enterprise that manages production or delivers services in more than one country. Information from the exhibitor must come on the application form.

REPRESENTED COMPANIES

Due to economics changes CENTREX does not collect data of represented companies.

NEW CATEGORIES

To better comply with the Euro Fair Statistics as orientation points we also introduced the dates of the fairs and their principle industry coverage.

During 2009 and 2010, the exhibition industry of Central Europe had its leanest, hardest years in many. We at Centrex, as well as others, closely reviewed our portfolios, looked at our strengths and weaknesses from a new perspective. We learned how to cut cost, how to survive and how to be more competitive in a business environment that indeed was not favourable to us. We learned how to make use of the on-line social media and how to live together as friends and enemies ("frienemies") in an era of changes in doing business.

Exhibition organizers use the statistics for basically one purpose – marketing the coming trade shows to potential exhibitors and visitors, i.e. to show that their shows are more important than those of their competitors. Statistics do matter, but what really matters is transparent, believable and justified statistics. And not only this. Also, we have to look very closely at the quality of visitors and exhibitors. What really matters most is the overall quality of our shows and the satisfaction of our clients – exhibitors and visitors.

To us at Centrex, transparency and audited statistics provided has always been a key issue. During the years we have however come to another stage. Centrex has become a sort of Central European Union of the Trade Fair Organizers. The new Centrex mission is to promote and support the exhibition industry in the countries of Central and Eastern Europe and South-Eastern Europe, to work closely with UFI, the Global Association of the Exhibition Industry, the respective country associations. We do quite openly discuss issues of our mutual concern.

The recent exhibition barometer provided by CENTREX members has not yet been that much optimistic. I do however strongly believe that with the economy recovering "the best for the exhibition industry is yet to come".

Jiri KULIS

FOREWORD

We are proud to present this new publication – the Exhibition Statistics brochure of Central East Europe. It relates to almost all the major trade fairs held in 2010 in our Euro-region.

Also for the transparency efforts in our region we insisted to the publishing of only audited data as essentials for our customers – visitors, exhibitors, industry partners alike. Thus we needed to resign from publishing data of some cities we had earlier. But altogether you will find 32 exhibition locations/cities with over 3 million visitors, 52 467 exhibitors presenting their products, services on a total area of 1 640 000 sq.m. exhibition space.

Some novelties in this new publication:

In 2010 our Global Association of the Exhibition Industry UFI launched a concentrated move to upgrade collecting and publishing audited data about trade fairs held in that year with more focused information including orientative industry classification. This is our first document where we also follow suit using the same universal classification of trade fairs in our table forms. (You will find this on page ... of this brochure)

Yet, for a clearer presentation of the international character of the coverage of markets CENTREX has decided to introduce an exhibitor category as multinational corporation. We consider as a speciality in our countries that a growing number of globalised, multinational organisations step up at our fairs as domestic suppliers – thus slightly understating the real international character of the supply side available at the fairs, the market value of our media. We know it may take a couple of years to reach this sophisticated overview possibility but we go on in this direction.

This publication also includes a separate volume on all audited Polish trade fairs irrespective of whether they are CENTREX members or on indirect partnership. And looking into the future CENTREX has signed another 3-year agreement of transparency services in Poland.

And, for the first time, as guest - and underlining the open character of our CENTREX activity – we cover an UFI-recognised (and audited by CENTREX) fair from Budva, Montenegro.

I wish you reassuring reading of the data and I hope you will find it worth.

With best regards

Károly NAGY
Executive director
